

Radiator Specific License Terms Version 1.2
2017-01-03

Radiator Specific License Terms for Radiator Enterprise Pack

These Specific License Terms apply to, and form part of, the Radiator Standard End User License Agreement ("**License Agreement**").

Section 2 "License Grant" of the License Agreement is amended to read as follows:

License Grant

Subject to the Licensee's payment of the license fee payable for the license to use the Software, the Licensee is granted a non-exclusive and non-transferable right to use the Software in the Licensee's own internal operations in the Software's intended use as specified in the Documentation. The Software is provided to the Licensee only in electronic form for download. Unless otherwise consented to by the Licensor, each Software version or Update (as the case may be) licensed to the Licensee will be made available to the Licensee only once.

The Licensee may install and use the Software on unlimited amount of computer(s), whether the computer(s) are physical or virtual.

The Licensee may install and use Radar monitoring software on unlimited amount of computers, whether the computer(s) are physical or virtual.

The Licensee may install and use RAdmin management software on unlimited amount of computers, whether the computer(s) are physical or virtual.

Unless terminated in accordance with Section 8 of the License Agreement, the license granted herein is perpetual.

The Licensee's right to use the Software can be limited also by pricing terms, which can for example set certain limits to capacity, number of transactions, other means of use or volumes.

The Licensee may make one (1) back-up copy of the Software solely for back-up purposes, provided that the Licensee affixes to such copies all copyright and proprietary notices that appear on the original copy.

The Software may only be installed and operated on a computer that is owned by or leased to the Licensee or its Operating Partner. The Licensee shall ensure that the Operating Partner runs and operates the Software only on behalf of the Licensee and

only for the benefit of the Licensee. The Licensee shall be liable for the actions of the Operating Partner.

The Licensee and the Licensee's Operating Partner may use the Documentation internally in order to support the above-mentioned licensed use of the Software only on behalf of and for the benefit of the Licensee.

The requirement to pay a license fee might not apply to an evaluation license of the Software granted to the Licensee, if the Licensor or its authorized reseller consents in writing that the evaluation license is free of charge. Unless otherwise agreed to in writing by the Licensor, evaluation licenses expire after thirty (30) calendar days from the date the Software was downloaded by the Licensee or provided to the Licensee, whichever of these is the earliest. On the expiry of the evaluation license, the Licensee agrees to either purchase a Software license at the Licensor's list price in force at that time or to destroy all copies of the Software and Documentation in the Licensee's possession, including any copies on back-up tapes or other media.

In other respects, the terms and conditions of the License Agreement remain unchanged.
